## About me

Mobile App Developer with 4+ years of experience building cross-platform apps using React Native, focusing on iOS and Android. Skilled in developing dynamic business applications with ERP integration for sales and retail teams. Experienced in backend development with Node.js, Express, MongoDB, and Firebase. Proven ability to deliver scalable solutions and collaborate effectively with teams.

## Skills

- React Native (cross-platform)
- iOS Development (Xcode)
- Android Testing
- Redux & Context API (state management)
- Node.js, Express (API development)
- MongoDB
- Firebase (auth, notifications, databases)
- ERP Pipeline Integration

## Projects

### Slipy Connect

App for brand ambassadors to manage campaigns and track engagement.

### Slipy Sales

Streamlines lead management and order tracking for sales teams.

### Slipy Retail

Provides retailers with real-time inventory and POS tools.

### Slipy Pulse

Enables sales managers to monitor team performance and analytics.

## Experiences

### Mobile App Developer — KTC Projects

2022- present

Slipy pvt ltd

- Developed and maintained four cross-platform business apps with React Native, focusing on iOS and Android support.
- Implemented comprehensive ERP pipelines, enabling connected and dynamic business operations across sales, brand ambassador, and retailer platforms.
- Led state management using Redux and Context API, supporting multiple dynamic features and live market requirements.
- Collaborated with teams to gather requirements, deploy apps, and ensure optimal end-user experience.

### Mobile & Backend/API Developer.

2021- 2022

The Revolution Tech

- Designed and deployed backend RESTful APIs using Express and Node.js.
- Engineered data models and handled large datasets with MongoDB for robust and scalable storage.
- Integrated Firebase authentication, notifications, and real-time database operations into production mobile apps.
- Coordinated seamlessly with frontend developers to deliver synchronized cross-platform solutions.

### Junior Mobile App Developer

2020,- 2021

- Assisted in developing and testing mobile solutions for both iOS and Android using React Native.
- Performed QA and debugging processes using Xcode and Android emulators.
- Contributed to team projects, gaining deep experience with mobile app deployment and maintenance.

## Education

### Bachelor of Computer Science

- capital management sciences– 2020.09 – 2024.09
